

THE TRAIL BLAZER

"A GROWING PAPER FOR A GROWING COLLEGE"

1950 to 1955.

Society News

By HELEN MCKNIGHT

Man-Piles Students

Alfred, Kentucky

Several students from the department of mathematics and physics materialized to Lexington, Tuesday evening and attended a lecture by Dr. Harold K. Schilling of Union College, Lincoln, Nebraska.

Dr. Schilling has designed an apparatus which makes it possible to touch the fundamental and difficult concepts of sound and light and wave motion much more effectively and simply than has ever been possible before and he demonstrated the equipment at the meeting.

Those listening the meeting were Arthur Allen, Preachy Harnett, Thomas Douglas, Paul Hunsbaker, Arthur Hunsbaker, Burnes Pierce, Ludolph Veselli and Larry Greenhouse. They were accompanied by Mr. and Mrs. Winstead and Dr. Black.

They were invited as guests of the Sigma Pi Sigma, national honorary scientific fraternity.

meat.

"It's the canon from New Orleans,

Ally, the fever cannon. At

light they set her barrels blazing

over every corner, and the artillery

fire cannon to fight the planes."

"But does it really help?"

"Yes, it does," said Mrs. M. Dillard,

"drained back, who had

and the general store valiantly

to avert the horrible but it had

young Ted, angered by

Black's treatment of Amy, re-

joined him to a duel and was

accepted. Any glances the other

launched but Ted was unmoved.

"The end of the war is off to

settle the point of honor."
